**Curriculum:** Huffman K9's 7-day man tracking course is a comprehensive training course focusing on developing the fundamental skills of the K9 team in man tracking.

Handlers will learn to develop tracking K9 capabilities in different ages of K9's, learn how to develop tracking effectiveness and maintain capability, attach to a unit as a tracking component in a urban and rural landscapes, translate the fundamentals of science behind scent signatures and apply this information to increase tracking performance, demonstrate the most efficient way to draw weapon systems, employ and engage threats while moving on a track, utilize multiple K9 teams on a single track, utilize cover and concealment while moving quickly through a city, develop creativity in both operations and in teaching others, and avoid counter-tracking tactics used against the handler.

Because this is a "train the trainers" class, we discuss various methods used globally to begin tracking with pups and how they differ based on different desired agency policy. We will discuss quality control in purchasing tracking K9's and incorporating contamination of surfaces into each of the models.

Approximately 1/3 of each session will consist of classroom work and the remaining will be taught in the field.

- Kong / Tug / Reward Toy (if used as standard equipment)
- Crate / Kennel / Auto Dog storage when not working
- Duty Pistol / Rifle with 100 rds of ammo for each

If you are missing gear, please let the instructors know prior to the class so that it can be issued to you.

**Lodging:** Instructors will recommend places for students to get reasonable rates with larger breed dogs accompanying them prior to class. Please request list if necessary.

**Registration & Payment:** All courses require pre-payment at time of registration. All courses have a limited amount of students and courses are filled on a first-paid, first-trained basis. Huffman K9 will refund 100% of your payment if the course is cancelled by our teachers; otherwise your payment is non-refundable.

#### **Class Ground Rules**

- 1) Dogs will be secured on a lead at all times, unless told otherwise by an instructor.
- 2) At no time will dogs interact and or touch one another during training hours.
- 3) Dogs will not drink from the same water bowl, water will be provided on site but it is up to you to bring your bowl and water your dog accordingly.
- 4) Dogs will be fed a minimum of two hours before training starts and two hours after training in the evening. This helps to prevent the development of Gastric Dilatation and Volvulus Syndrome (GDV aka Bloat).
- 5) There will be a designated area to break dogs. Dogs will be broke prior to each training event. Please bring poop bags and clean up after your dog. There will be a specified trash bin for poop bags.

## **Contingency / Emergencies:**

There will be a cooler on the property; if we have a warm day it will be packed with ice sheets in the case of a dog or handlers overheating. A medical coverage truck will be staged and prepared with a med-kit and a route to the nearest ER and 24-hour emergency vet clinic.

Primary driver will be Jensen Huffman

Primary medic will determined the morning of training.

Included in your training packet will be a printed out route to the nearest 24 vet and Emergency room. If you have a preference you may print your own and use that clinic.

If you have any further questions regarding the company and our services please do not hesitate to contact me.
